

Lake Update

Capestone offers its residents an affordable, yet convenient lifestyle centred around an urban hub, with an abundance of interconnected open space and recreational nodes.

Central to this lifestyle offering is a 12.8-hectare lake, bordered by a 2.5km hike and bike trail and a series of both passive and active open space and parks.

Urbex is pleased to announce the final stage of the lake construction has commenced. Completed works to date have included the interface of the lake from Anzac Avenue and the boundary park amenity and revetment walls.

The final stage of construction involves excavating the land that will form the lake and filling it with water.

We look forward to delivering this iconic piece of infrastructure to the community, and expect construction to continue until late 2019. BMD Constructions Pty Ltd will be undertaking the civil works, with work times to be between the hours of 6.30am and 6.30pm, Monday to Saturday.

Access points will be plentiful, as will leisure and parkland amenities around the perimeter.

Amenities around the lake:

- Capestone Shopping Plaza (construction expected to commence in late 2018)
- 2.5km hike and bike trail bordering the lake
- Passive and active open space and recreational nodes

Should you have any enquiries regarding the lake, please email info@capestone.com.au or call **1300 769 607**.
